ABOUT THE BRAND

Riva Yachts

The Riva Story begins in 1842 when Pietro Riva applied his inimitable savoir-faire which is at the core of Riva's winning beauty and style. This savoir-faire was passed down from generation to generation while gaining a prestigious reputation and the shipyard continued to flourish. Today, operating under the Ferretti group, Riva continues to reach for new horizons through ambition and restless genius as the Riva family has done since the 1800's.
