

Yacht Overview

54' Aquila

EXPERIENCE M/Y SEA ANGEL

Miami, Bahamas & Caribbean

The 54's interior has square footage that's roughly the same amount of space as a 68- to 70-foot monohull. It's also a smartly designed space: The cockpit has a table for alfresco dining, as well as three stools at a bar that connects to the galley inside via an opening window and door. Thanks to the boat's 25-foot beam, the main deck effectively turns into one vast social area. Add the salon's seating, 360-degree banks of windows and 6-foot-9-inch headroom, and the area feels more like a waterfront condo than a boat.
