## ABOUT THE BRAND

*Tiara Yachts*

Since 1974, there has been a single theme in all the boats we craft: that only the finest will do, from materials to quality standards, all the way through to the customer buying experience. This passion and drive instilled by Tiara Yachts founder Leon Slikkers is still alive today in the second and third generations of Slikkers family boat builders, as well as the employees at Tiara Yachts.
